This report was compiled using testing across the putting greens and 18 greens. 2019 to the first hole of Round 4 at Hillside Golf Club for the DP round Four Cabot Classic. Testing was carried out from 05:00 to 05:00 on the 24th of July. The results presented, are for 10mp speed, using consistency against the course average, green firmness, green firmness against the course average, and approach firmness. In addition the soil moisture, sear height, NDVI, TrueTrack (horizontal and vertical ball deviations) have been collected for later consultation.
