Senior Leadership
Team

Salary:

£ Competitive Salary

Application Deadline:

End of November

Location:

UK Based
Willing to travel

If you believe you have the necessary skills and experience to excel in this role, we look forward to hearing from you.

ABOUT US

ProPitch Ltd are a market-leading Natural turf consultancy business offering our clients a range of independent pitch support services. From tournament delivery at the elite level to pitch construction quality control, feasibility studies, design and planning services, tender evaluation and agronomic support, we are a leader in the field of sports surfaces and golf course agronomy.

ProPitch also offers a range of market leading data recording and analysis solutions giving our clients access to our extensive database and experience with regards to pitch performance criteria.

THE ROLE

In order to succeed in this role, you need to be passionate about sports turf management and committed to providing high-quality service along with elite-level playing surfaces. Successful applicants will have the opportunity to advance and diversify their careers in sports turf management at the highest level.

In addition to being willing to travel abroad for both short and long periods of time, the successful candidate will also have good communication skills. There will be several short trips of 3-5 days, and long periods of up to 5 weeks away from home as a matchday presence at international events. In this position, you will be responsible for assessing sites, collecting data regarding pitch performance, writing reports, presenting data to key stakeholders, and providing recommendations based on the facts. The successful candidate will also assist venues with remote support and pitch maintenance scheduling.

PREFERRED REQUIREMENTS

- Decorated history in turf management, possess industry standard qualifications and a minimum of five years' experience in turf management
- Have a practical understanding of sports turf construction, renovation, maintenance and agronomy
- Demonstrate an understanding of pitch performance data collection and be familiar with modern pitch management solutions, such as: Artificial pitch lighting systems, subsoil heating and irrigation systems, pitch drainage, and hybrid pitch systems
- Must be a confident enthusiastic professional at all times, with excellent communication and time management skills to ensure that the business thrives, grows and achieves continued success
- High level of self motivation, discipline and ambition is essential
- UK Drivers License
- Up to date passport
- Good IT ability – MS Word, Excel, Adobe and other standard software packages
