

UEFA EURO's 2021

## PITCH CONSULTANT, INTERNATIONAL

### PITCH CONSULTANT | 3 VENUES

ProPitch were UEFA consultants for three of the eleven venues used for the EURO 2021 championships, held in the summer of 2021. This was the largest allocation given to any pitch consultancy provider.

- Hampden Park, in Glasgow, Scotland a 52,000 seater stadium.
- Olympic Stadium, in Baku, Azerbaijan, a 68,700 seater stadium.
- Puskás Aréna, in Budapest, Hungary a 56,000 seater stadium.

Focusing specifically on the pitch conditions our scope of work was to provide remote monitoring of the venues for UEFA, support and train the ground staff ready for MD1 and support on the ground for the delivery on MD1.

In our approach we proactively monitor the venues through objective test data loaded onto our ProPitch designed venue portal by both independent assessments of our consultants and self assessments of the ground staff. This allows us to identify performance concerns and take actions to get a 5 star pitch for the first game.

Hampden,  
SCOTLAND

Baku,  
AZERBIJAN

Budapest,  
HUNGARY
