

CROATIAN FA, ST ANDREWS UNIVERSITY

## PITCH CONDITION CONSULTANT

### EURO 2021 TRAINING VENUE

Leading up to the EUROS of 2021, teams confirmed their base camps for training within the tournament.

ProPitch was used by several International teams to visit and report on the conditions and appropriateness for international teams and players prior to their arrival.

St Andrews University was identified by the Croatian FA as team base camp during the tournament as several games were to be played at Hampden, Scotland.

ProPitch were contracted by the Croatian FA in April and twice in May to undertake assessments ahead of the Croatian National Football team arriving.

The ProPitch 13 UEFA standards self-assessment and UEFA natural assessment, and a review of conditions, was carried out.
